Product Information

COPPERXT[™]

Selling Points

- A premium product that is superior to copper due to its formability, durability, lightness and longevity.
- Real copper bonded to a stainless core through a high-tech metallurgical process.
- Extraordinary tensile strength - 65,000 PSI. Architectural Gauge (AG) material is considered to perform superior to 16 oz CU copper and Structural Gauge (SG) material will be comparable to the performance of 24 oz. copper.
- American Society for Testing and Materials Standards Designation: ASTM B506-81
- Greater resistance to corrosion, even in the bends.
- Resists damage from hail and falling debris unlike standard copper.
- Ages with a rich patina, the same as copper.
- Product costs are approximately 30% less than typical 16 oz. copper (pre-formed).
- Can be cut, formed, soldered, and worked with like solid copper.
- Will be available in popular sizes of roof flashing as well as a roofing panel, trims, flat sheets and size 4", 6", 10" gooseneck vents.
- Preformed products come with a 50 year material replacement guarantee, including highly corrosive coastal applications. (This matches premium shingle roofing.)
- Compatible with all types of concrete mortar and mortar additives.
- Compatible with ACQ treated lumber.
- Transports easily and without damage.
- Demographics: 35-55 years of age and a \$125,000 plus household income. Re-roof or new home. Looking for the premium roof material with a 40-50 Year Warranty.
- With labor, price per piece of custom formed products (flat sheets) approximately 25 - 30% more than Southeastern Metals' preformed products.

CopperXT 50-Year Replacement Guarantee

Southeastern Metals is proud to offer a 50-Year Replacement guarantee on its entire line of CopperXT products - the only guarantee of its kind in the industry today!

Extensive testing and field applications have shown CopperXT's remarkable ability withstand the test of time in some of the harshest environmental conditions - even highly corrosive saltwater environments. Our CopperXT products, given proper storage, installation and easy maintenance, are guaranteed to last for 50 years after shipment from Southeastern Metals.
